

ORDERING GUIDE

Polycom® Ceiling Microphone Array

Polycom's Ceiling Microphone Arrays are the only audio pickup devices for Polycom® RealPresence® Group Series and HDX videoconferencing systems, and SoundStructure installed audio solutions that offer consistent, reliable, 360° clear voice pickup via Siren22 kHz StereoSurround™ or Siren14kHz wideband audio.

Pricing and availability

The Ceiling Microphone Array is available in a choice of black or white element and drop cable. Please refer to the matrix below for the appropriate part number.

The Ceiling Microphone Array is available worldwide through our Channel partners. Products and specifications are subject to change. Please consult the Polycom price list or price catalog for the most up to date pricing information.

If a customer chooses a black cable & element,			If a customer chooses a white cable & element,

---	---	--

System	Maximum Ceiling Microphone Arrays supported
Polycom HDX 9000, SoundStructure C16*, SoundStructure C12*	Up to 4
Polycom HDX 8000, HDX 4000, RealPresence Group 700	Up to 3
Polycom HDX 7000, RealPresence Group 300 and 500, SoundStructure C8*	Up to 2
Polycom HDX 6000	1

*SoundStructure can support additional ceiling microphone arrays if individual elements are activated.

Maintenance

The Ceiling Microphone Array is a peripheral device and is therefore covered by the maintenance contract for the base codec to which it's attached.

Installation

Polycom is not responsible for the installation of the Ceiling Microphone Arrays; however, Polycom will provide the specifications for installation. Please refer to the Ceiling Microphone Array Installation Guide for more detail.
